                 version: 'v9.0'
                                                                                                                     cmeta property thispense contents 497792163708495 // cmeta property thrappid content 71777612180277 // cmeta property ogital content ((title)) // cmeta property ogital content ((title)) // cmeta property ogital content ((title)) // cmeta property ogital content ((description)) // cmeta property ogital content ((description)) // cmeta property ogital content ((description))
       FB AppEvents.logPageView();
(function (d. m. id) {
```

Berdasarkan real dataset berikut:

https://grouplens.org/datasets/movielens/1m/

Buatlah analisis sederhana seperti:

- Mencari mean, min, max dan data statistik lain.
- Data cleaning
- Tampilkan rating per genre movies
- Menampilkan high rated movies
- Grafik popularitas tiap genre
- dll

Thank You
